EXPERIENCE

SMART QUIZ APPLICATION SYSTEM

Back-end Application

- Implemented using Java and Spring Boot, with scoring logic and user authentication.
- Designed RESTful APIs for quiz creation, answer submission, and results retrieval.

BU-DEV TEAM | 2025 - PRESENT

Babcock University

- Documented authentication workflows and request/response structures, making it easier for new team members to integrate with APIs.

Java SpringBoot Tutor | 2024 - Present

Freelance / Private Sections

- Delivered personalised tutoring sessions to Students On Java, SpringBoot, and REST API development.
